Refrigerated cargo installations classed with Lloyd's Register

KEY TO REFRIGERATED CARGO INSTALLATIONS

The only ships included in this list are those having refrigerated cargo installations classed with Lloyd's Register or the British Corporation

Column 1

L.R. Identity Number	As recorded in the Register of Ships.

Column 2

Ship's Name	The name of the ship at the time of going to press. Changes of name are reported in the monthly Supplement.

Columns 3 & 4

Lloyd's RMC **✠Lloyd's RMC**	Denotes that the refrigerated cargo installation of a ship has been classed with Lloyd's Register for the duty indicated by the class notation. The ✠ signifies that the installation was constructed under the supervision of the surveyors to the Rules of Lloyd's Register.
RMC **RMC✱**	Denotes that the refrigerated cargo installation of a ship has been classed with the British Corporation. The ✱ signifies that the installation was constructed under the supervision of the surveyors to the Rules of the British Corporation.
‡	Denotes that the installation is considered suitable for the carriage of fruit. It indicates that the rate of air circulation through the chambers or to the containers and the air refreshing and thermometry arrangements are suitable for the carriage of fruit cargoes. It also indicates that the installation has excess capacity for the cooling down of the cargo. The symbol is also assigned to fishing vessels with Lloyd's Register classed refrigerating capacity to freeze down their catch.
SRMC	Special Survey of the refrigerated cargo installation.
CSI	Continuous Survey of Insulation.

Columns 7 & 8

Cargo Chambers	Total capacity in cubic metres. The capacity is measured from the face of overhead, 'tween deck and tank top insulation lining, or the surface of 'tween decks where uninsulated; or from the face of brine pipes or air ducts; from the face of permanent cargo battens or air screens or air coolers or casings. Deductions are made for floor gratings which are part of the air circulation system, for pillars, stanchions and other fixtures which interfere with the cargo-carrying capacity, but not for loose or portable floor dunnage, or for portable bins or trays and their supports.
